

Environment Policy

Optima Health provides an occupational health service to a wide range of customers including private industry and local and central government. The organisation is committed to managing and controlling its environmental impacts in ways that are both socially and economically justified. The nature of the organisations business means that our operations DO NOT have a significant impact on the environment, the areas that do have an impact on the environment are:

- Energy use
- Water
- Vehicle emissions

The organisation is totally committed to:

- Protecting the environment
- Prevention of pollution
- Fulfilling our compliance obligations
- We shall continually improve the environmental management system to enhance environmental performance

In order for the business to demonstrate it's committed to it being maintained, internal audits shall be carried out, the results recorded and where applicable corrective action implemented. The Company fully supports the UK government's signature to the 'Kyoto Agreement' - reduction in carbon emissions.

All necessary personnel and financial resources will be allocated to assist the company in meeting its environmental objectives.

As CEO I take full responsibility for ensuring that this policy is communicated and implemented throughout the organisation and any other interested parties.

Approved by CEO on 22/01/19
